PRODUCT DESCRIPTION

Fodable Banqueting Table with steel tube structure diam. 30 mm, top made in polyethylene resistant to stain, scratch and weather, for easy cleaning.

Folding tables are also suitable for outdoor use, they are the ideal multipurpose tables to be used in the restaurant and catering where extremely robust, functional and practical tables are required. They can be easily carried and used in different places. The structure of the legs is folded into the preformed shape of the tabletop.

Dimensions cm 210 x 86 x 74 h.
